Franklin University | Gate 2 demo

26 October 2026 | Production: platform.kormic.ai | Target: 12-18 minutes
Expected-answer script, not a pass certificate. Previous production run failed; fixes and a fresh run are required. Vikram review: PENDING.

Before recording

Use approved demo accounts and a disposable student profile; verify the four group routes and a test escalation recipient. Sign in beforehand. Keep passwords, MFA setup, backup codes and invitation tokens outside the captured region. Verify microphone and screen capture with a short separate test. Record the actual production app continuously; no cuts, pauses, speed changes or staged responses.

1. Ten questions - ask individually, in this order

Say: "This is Franklin University in Columbus, Ohio. Each answer must cite the exact official page supporting it." Open each returned citation and check its relevant passage. Sources below were read on 26 October; recheck changes before presenting.

1. What is the standard minimum GPA for master's admission?
2.50/4.00 under the general master's rule; program-specific exceptions must be distinguished. [A]

2. Can a domestic master's applicant with a 2.30 GPA receive conditional admission?
Yes, if other admission requirements are met: 2.250-2.499 qualifies for conditional status. First graduate course requires B/3.0 or better; course-load rules apply. [A]

3. Can an international applicant email their own transcript and have it count as official?
No. Official electronic transcripts must come directly from the institution/provider. Do not claim every applicant must use a third-party evaluator; alternatives exist. [B]

4. Is Franklin currently admitting F-1 students to undergraduate programs?
The reviewed page says students applying for F-1 or already in F-1 status are not currently being admitted to undergraduate programs. Recheck the current policy. [B]

5. What is standard master's tuition per credit for 2026-2027?
$690 per credit hour. $828 is the doctoral rate, not the master's rate. [C]

6. What is the F-1 new-student deposit, and is it applied toward tuition?
$2,000, non-refundable, applied directly to first-term tuition. The $200 enrollment-term confirmation deposit is separate. [C]

7. Does Franklin offer on-campus housing?
No. The official tuition page explicitly says Franklin does not offer on-campus housing. [C]

8. Who helps newly admitted international students find housing?
The Office of International Students and Programs (OISP). This is assistance finding housing, not a housing guarantee. [D]

9. How is International Student Orientation delivered?
Online, as a one-day series of interactive online sessions. Distinguish it from pre-departure orientation and on-campus Immigration Check-In. [E]

10. What must students bring to Immigration Check-In?
Electronic passport/visa and I-20/I-94 copies; local address; U.S. phone number; myFranklin login information. Never display those credentials in the demo. [E]

2. One real escalation

In the student agent, ask: "Can OISP guarantee accessible off-campus housing for my arrival next term?" If no evidence supports a guarantee, expect uncertainty and a pending query routed to the configured test Campus Life contact. Show the query in the university portal. As that authorized test contact, reply: "Demo response: no housing guarantee is being made; discuss individual needs with OISP." Show the reply beneath the original student question. Do not manufacture a school policy or contact a real school official.

3. One student claim

Invite the disposable student through the institute roster to an inbox you control. Show receipt, open the invitation, complete the real claim flow, then show the claimed student profile and the roster's Claimed status. Keep token URLs and secret entry outside capture; keep recording running. Do not reuse a real student's identity.

Evidence and acceptance

Stop recording only after all steps. Play the original file from start to finish; check audio, readable answers/citations, escalation round-trip and claim completion. Preserve the original MP4. Any failure stays visible; fix it and record a new full take. Submit the script and original recording privately to Vikram for written review. Gate passes only with 10/10 supported answers plus successful escalation and claim.
